

## **Resolution in Favor of Family Rights Initiative to the Voters instead of to the Legislature**

**Whereas** the 2023 Parents Rights Initiative to the 2024 Legislature was used by Democrats in the legislature to mislead voters in the 2024 General Election into thinking that Democrats support Parents Rights when in fact they oppose Parents Rights, and

**Whereas** the 2026 Family Rights Initiative includes restoring Parents Rights and restoring the right of girls to fair sports opportunities and repeals numerous bad laws passed in recent years and is carefully written in such a way that it meets the single subject rule, and

**Whereas** restoring Family Rights (including Parents Rights and Girls Rights) is strongly supported by Independent swing voters, and

**Whereas** putting a Family Rights Initiative on the 2026 General Election ballot will strongly favor conservative Republican candidates – increasing their odds of victory in swing districts in the 2026 election, and

**Whereas** supporting any more Initiatives to the Legislature will only give Democrats who control the Legislature another opportunity to mislead voters and another opportunity to hide their real position on Parents Rights and Girls Rights from the voters in the 2026 election,

**Therefore, be it resolved** that we support putting a Family Rights Initiative on the Fall 2026 ballot instead of putting the Parents Rights Initiative back to the Legislature in 2026.
